SUBJECT INDEX

A forward look (Williams) 27

A method of standardization of photographic viewpoints for clinical photography (McCausland) 109

A multiple-choice quiz board for health education (Paton, Shaw, Smith, McIntyre) 107

Abstracts 34, 78, 116, 147

Advertising or education: alternative models for patient education (Clarke) 21

Ancient Egypt
Illustration of medicine in—(Reeves) 5

Art therapy (Laing) 84

Audiovisual material for students beginning clinical medicine
Experience with—(Chessell, Petersen, Khir, Steele) 64

Audiovisual media in nursing (Townsend) 15

Biomedical photographic department
Standardization for—(Vetter) 44

Charing Cross television (Metcalfe) 128

Clinical photography
A method of standardization of photographic viewpoints for—(McCausland) 109

Clinical television record (Burgess, Clayton) 136

Computer graphics in medical illustration (Clark) 140

Developing role of a university audiovisual centre (Clarke) 124

Early days of postgraduate medical television in London (Bowen) 134

Equipment and methods 29, 76, 142

Evaluation of a diagnostic test based on photographic photometry of infrared and ultraviolet radiation reflected by pigmented lesions of the skin (Marshall) 94

Experience with audiovisual material for students beginning clinical medicine (Chessell, Petersen, Khir, Steele) 64

Experiments on graphic reconstruction in real perspective (Tinkelenberg) 101

Film *and* television (Guariento) 126

Fundamentals of . . . television in medicine (Guest-Lee) 23

Fundoscopy and fluoroscopy
Television—(Haining, Ellingford) 112

Future developments in television
Some—(Bradley) 138

Graphic reconstruction and stereoscopy (Tinkelenberg) 68

Graphic reconstruction in real perspective
Experiments on—(Tinkelenberg) 101

Graphing the frequency distribution (MacGregor) 17

Health education
A multiple-choice quiz board for—(Paton, Shaw, Smith, McIntyre) 107

Illustration of medicine in ancient Egypt (Reeves) 3

In support of medical education: reflections on a symbiosis (Gale) 54

Infrared and ultraviolet radiation relected by pigmented lesions of the skin
Evaluation of a diagnostic test based on photographic photometry of—(Marshall) 94

'Instant feedback': patient management problems for general practitioners using latent image printing (Rogers, Harden, Murray, Dunn) 72

Latent image printing
'Instant feedback': patient management problems for general practitioners using—(Rogers, Harden, Murray, Dunn) 72

Learning materials 31, 145

Medical illustration
Computer graphics in—(Clark) 140

Medical teacher's viewpoint (Palfrey) 132

Nursing
Audiovisual media in—(Townsend) 15

Patient education
Advertising or education: alternative models for—(Clarke) 21

Patient management problems for general practitioners using latent image printing
'Instant feedback':— (Rogers, Harden, Murray, Dunn) 72

Photographic photometry of infrared and ultraviolet radiation reflected by pigmented lesions of the skin
Evaluation of a diagnostic test based on—(Marshall) 94

Pigmented lesions of the skin
Evaluation of a diagnostic test based on photographic photometry of infrared and ultraviolet radiation reflected by—(Marshall) 94

Postgraduate medical television in London
Early days of—(Bowen) 134

Reports 37, 119, 150

Reviews 32, 79, 114

Slides and angiograms
Storage and retrieval of—(Siertsema, Blanksma, Timmerman) 92

Some future developments in television (Bradley) 138

Standardization for the biomedical photographic department (Vetter) 44

Standardization of photographic viewpoints for clinical photography
A method of—(McCausland) 109

Stereoscopy
Graphic reconstruction and—(Tinkelenberg) 68

Storage and retrieval of slides and angiograms (Siertsema, Blanksma, Timmerman) 92

Television fundoscopy and fluoroscopy (Haining, Ellingford) 112

Television in medicine
Fundamentals of . . . —(Guest-Lee) 23

There are no shortcuts (McPheeters) 99

University audiovisual centre
Developing role of—(Clarke) 124

Viewpoint
A forward look (Williams) 27

In support of medical education: reflections on a symbiosis (Gale) 54

There are no shortcuts (McPheeters) 99

Wellcome Museum of the History of Medicine
The—(Bracegirdle) 59
